## Composition

Cephalexin (as Monohydrate Cephalexin) .....	3 g
Gum Arabic .....	2,7 g
Sodium Citrate .....	21,6 g
Citric Acid .....	3,9 mg
EDTA Disodium .....	6 mg
Amaranth Coloring .....	2,4 mg
Sugar q.s.f. ....	39 g

UNDER VETERINARY  
PRESCRIPTION ONLY

Protect the  
environment

## Indications

Bacterial infections of the respiratory, skin, gastrointestinal, genitourinary, otitis, pre and post operative systems. It acts on Gram positive and Gram negative germs.

## Dosage

Dogs and Cats: 1 mL every 2 kg of weight administered every 8 to 12 hours. The dose will be adapted according to the criteria of the veterinarian.

## Precautions and Warnings

It should be used with caution in patients with severe renal insufficiency and in pregnant animals. Concurrent use with nephrotoxic drugs (aminoglycosides, strong diuretics) can cause kidney function disorders.

## Contraindications

Do not use in case of known hypersensitivity to beta-lactam antibiotics.

## Storage

Store between 5 and 25 °C closed in its original sales box. Keep out of the reach of children and domestic animals.

## Presentation

Bottle containing 39 g of powder to prepare 60 mL of oral suspension.
